Interior decoration

A low-angle, upward-looking photograph of a forest. The central focus is a tall, slender tree with vibrant green foliage, possibly a young maple or birch, reaching towards the sky. This tree is surrounded by numerous other trees, most of which are bare and their branches are silhouetted against a pale, overcast sky. The perspective creates a sense of height and verticality, with the dark trunks of the surrounding trees framing the central green tree. The overall mood is one of natural beauty and growth amidst a dormant forest.
