We Do**

**ORWOOD®**

**We Care ...**

# ORWOOD®

## To be a part of every project ...

Is the vision of our whole **ORWOOD** TEAM. Global and International presence is the primary objective.

We don't only aim but also working forward on reaching that goal and continuously improving every method we use.

Our goal is to share our expertise and experience to everybody as well as to develop our craft, which can be attained by enrolling ourselves in any projects anywhere possible.

We will continue to show outmost commitment on all projects without sacrificing time and best quality.

**ORWOOD** TEAM is the structure of company who is looking for one and only target which is ...

To Be a Part of Every Project.

**DIRECTOR MESSAGE**

## WHO WE ARE ?

We are a multinational organization, that have one of the most experienced team who can give the solution of every part in interior design.

Quality Management Systems Certification

**Simply .. WE ARE**  
**A CREATIVE MODERN**  
**INTERIOR DESIGN**  
**COMPANY**

- **Our Mission** is to provide the qualified solution for the right space.
- **Our Vision** is to be a part of every project.

## HOW WE WORK ?

### Studying

Receiving client's visions and ideas, analysing location and culture, and came out with the best interior design concept.

### Planing

Brainstorming and listing all ideas. Finalizing plans and furniture layout taking in consideration the efficiency of circulation and space using.

### Designing

Moving deeply in the space together with client, by producing renderings, specifying materials, calculating quantities, and drawing technical details. Finally preparing the design package.

### Executing

Stepping on the site with the design package. Managing the works, supervising the quality, and applying ORWOOD experience on ground. Making client visions real.

## WHAT MAKES US UNIQUE ?

### Accuracy

**ORWOOD** are distinguished from the rest of the competitors in this field through our industry which relies on high precision because we use advanced technologies such as CNCs and thus ensure accuracy in production, high quality and speed to satisfy our customers in addition to the appropriate prices that we offer to customers.

### Mastery

Ability to fabricate different types of creations and models according to the nature of each market and different customer requirements.

The long experience in the field increased **ORWOOD's** professionalism and flexibility in dealing with complexity.

### Environmentally Friendly

Recently, there has been a growing interest in environmentally-friendly materials. As a large number of people are beginning to take care of the so-called carbon footprint. With vases, jugs and chandeliers made from recycled materials, up to carpets woven from melted plastic yarns, to chairs made of wood on which rusty nail holes remained. There are some concepts that can guide us to choose environmentally friendly materials.

### Creativity

Ability to create and implement designs that meet the wishes and aspirations of clients, each depending on nature, style and materials they desire. **ORWOOD** uses a variety of raw materials, designs that vary depending on the size of the project, Furniture and furnishings vary from modern furniture to international standards, and traditional furniture inspired by local heritage.
